

Frequently- asked questions (FAQs)

Secondary One Webinar

1. Instead of purchasing the I-pad, can my child use her exiting Samsung Tablet?

No. There are programmes and lessons that require students to use Apps only available in the IOS platform. The tablet will not be able to join the school's network, and the school's main Device Management Application cannot manage it. Moreover, no filtering or security protocols can be performed.

2. Is there any funding support for students under Financial Assistance Scheme (FAS) for purchase of Personal Learning Device (I-pad)?

The school will subsidise students under FAS. However, students who require additional funding support may approach their Form Teachers.

3. When will the Secondary 1 students receive their MOE Gmail account?

Students should have received their Gmail account in Term 1 week 3.

4. Will my child be allocated to one of her CCA choices?

Yes. Students will be allocated to a CCA based on their four choices. Most students will be allocated to either their first or second choice.

5. What if my child would like to try a particular sport (CCA) for the first time?

Students are able to go through sports trials and selections to recognise and identify their potential and passion before the CCA on-line selection.

6. Does the school recognise students' community effort if there are certificates or letters to show the number of hours they have participated in VIA beyond school?

Yes. Students can submit their certificates or letters to the Form Teachers.

7. Are there places in school that my child can go to complete her homework after curriculum hours?

Students can go to the library, study corners or form classroom to revise or complete their work after lessons.

8. Are lockers available in the school for students to keep their books?

No. Students are encouraged to bring their books home for revision. However, students may keep their books in their lockable table.

9. How the Secondary Four students did in 2021 O level Examinations?

You can view the results on the school-website.

10. How the school prepare students for National Examinations and Post-Secondary Education?

The school looks into the holistic development of the students. To enhance students' learning experiences, the school has programmes such as study skills workshops, iStrive Mentoring programme, after school-consultation and protected self-study time. In addition, the school also plans programmes such as Education & Career Guidance talks, learning journeys, EAE and DSA portfolios and interviews workshops to equip the students with the requisite competences, skills and knowledge to realise their potential.
